# European Fingerboard Community CLUB PRAGUE

European Fingerboard Club Prague is the first professional fingerboard club within the competence of the EFC Community and the first ever club dedicated to fingerboard trick sport which serves to fingerboard community as a centre, in which you can pay attention to fingerboarding, freely and undisturbed. All that with professional equipment and parks from the fingerboard top professional brands. The permanent club facilities include the latest generation of parks as +blackriver+ G9 Park, +blackriver+ G6 Plaza, +blackriver+G8 Plaza with space for other large park such as +blackriver+ G8. The premises of the club also offer rail walls in two heights for riders of virtually all age categories...

# European Fingerboard Community CLUB PRAGUE

EFC Fingerboard Club Prague is designed for organizing races and also offers the new option of providing club equipment for both commercial and non-commercial entities for the purpose of organizing their own events, competitions, etc., all on first-class, professional equipment. A new type of races in the EFC Challenge serial offers further expansion of the EFC universe.

EFC Fingerboard Club Prague is further enhanced with a full range of services that complement the function of the club in a full leisure centre. These services include renting fingerboard equipment, test centre, where it is possible for members free of charge to test and try the majority of professional equipment and to make sure of its quality before possible purchase. Part of the EFC Club Prague is a leisure zone. Among the services for parents of younger children themed courses are offered for leisure activities such as fingerboard school and others.

We thank to all who support us in the building of the club and enable us to fulfil another part of the European Fingerboard Community project. Our vision and desire has been to ensure that visitors and members of the EFC Fingerboard Club Prague find a safe and pleasant haven for the development of fingerboard activities and gain a space to develop their own creativity.
